## EXPERIENCE

### AAST Entrepreneurship Center Hackathon

08/2024 - Present

wasta ↗

specifically targeting higher education and career development for university students. Major trends in this industry include the rapid expansion of online learning platforms, the integration of AI for personalized educational experiences, and the growing demand for job-oriented courses. We offer significant added value by providing tailored, university-specific courses that align with students' academic paths. Our platform combines online and offline training opportunities and includes practical career tools such as automatic CV generation and access to real-time job opportunities. This comprehensive approach bridges the gap between academic learning and employability, making our platform a unique and essential resource for students' success.

### HR volunteer

07/2024 - Present

Delta Youth Support, Menoufia Governorate ↗

- Delivered engaging and informative public talks on career development, HR practices, and youth engagement, enhancing community knowledge and support.
- Developed clear and comprehensive job descriptions, outlining roles, responsibilities, and qualifications for various positions.
- Assisted in organizing and conducting interviews, evaluating candidates' suitability for roles.
- Supported new hires with onboarding processes, providing necessary information and guidance to ensure a smooth transition.
- Organized and facilitated training sessions and workshops, focusing on skill development and knowledge enhancement.
- Collected and analyzed participant feedback to improve public speaking engagements and HR activities.

### Contestant

2023 - Present

ECPC (Egyptian Collegiate Programming Contest) ↗

- Demonstrated ability to work under pressure and solve complex algorithmic problems within a time-constrained environment.
- Collaborated with team members to strategize and solve programming challenges, contributing to overall team performance and success.

### Masry Tech Hackathon

09/2024 - 09/2024

By Arabic ↗

Innovative Educational Application for Arabic Language Learning

Project Description:

Developed an innovative educational application designed to enhance Arabic language learning through an interactive and comprehensive approach. The app targets children and school students, with future plans to expand to include youth, expatriate Arabs, and Muslims living abroad. The project emphasizes a game-like design and leverages AI technologies to provide a personalized learning experience.

### Front-End Intern

08/2024 - 09/2024

CodeAlpha Tech ↗

Projects:

- Gallery: Created a dynamic image gallery with filtering and sorting functionalities, enhancing visual presentation and user interaction.
- Calculator: Developed a fully functional calculator application with basic arithmetic operations, demonstrating proficiency in JavaScript for real-time calculations.
- Portfolio: Built a personal portfolio website to showcase projects and skills, implementing responsive design and

interactive elements to improve user experience.

**Programming Intern**

08/2024 - 10/2024

Azzrk ↗

Technical and Educational Training:

- Programming and WordPress Course:

Gained foundational knowledge in programming and WordPress through comprehensive courses. Acquired skills in WordPress installation, domain management, and plugin utilization.

Learned to build and customize WordPress themes, manage site content, and enhance security and performance.

- Microsoft Office Suite Courses:

Completed courses in Microsoft Word, Excel, and PowerPoint, mastering essential tools for productivity and presentation.

- Soft Skills Development:

Enhanced communication skills through courses focusing on effective interpersonal interactions, body language, and face-to-face communication.

Developed problem-solving strategies and communication solutions for various professional scenarios.

- Front-End Development Training:

Acquired skills in HTML, CSS, and JavaScript, with hands-on exercises to reinforce learning and practical application.

- Object-Oriented PHP:

Studied object-oriented programming in PHP, including class creation, inheritance, encapsulation, and polymorphism, to build robust and scalable applications.

- Gained expertise in Twig templating for PHP applications, including template creation, inheritance, and dynamic content rendering.

**GenZures Hackathon**

12/2023 - 12/2023

Nile University ↗

**E D U C A T I O N**

---

**Faculty of Computers and Artificial Intelligence**

2022 - 2026

University of Sadat city - Currently in Level 3 (Third Year), Expected Graduation: 2026

Projects:

- Full Stack Website Project: Led the development of a website supporting Palestinians, managing both front-end and back-end development.
- Multimedia Video Editing and Voice Over Project: Directed the creation and editing of multimedia content, including video and voice-over elements.
- Microsoft Access Database Project: Oversaw the design and implementation of a school management system using Microsoft Access.

**Mobile development**

04/2024 - 10/2024

DEPI

Technical Skills:

- Programming Languages: Proficient in Java (basics and OOP), Kotlin, Dart
- Mobile App Development: Experienced in developing with Flutter
- Problem Solving: Applied OOP concepts to solve various programming problems

Soft Skills:

- English Proficiency: Fluent in English, with strong written and verbal communication skills
